EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marcelo Copat on November 19, 2009.

The application has been amended as follows:

2. **Amend Claim 3 as follows:**

Claim 3, line 2: replace "a first and a second surface" with – a first surface and a second surface –

Claim 3, line 3: replace "the first and the second surface" with – the first surface and the second surface –

Claim 3, line 33: replace "pattern." with – pattern, wherein the first component and the second component comprise microcircuit chips.--.

3. **Amend Claim 12 as follows:**

Claim 12, lines 1-2: replace "wherein, in order to create a multi-layer circuit-board structure, additional insulating layers and conductive layers are manufactured on

at least one of the first and the second surface.” with – wherein additional insulating layers and conductive layer are manufactured on at least one of the first surface and the second surface to create a multi-layer circuit-board structure. --.

4. **Amend Claim 16 as follows:**

Claim 16, line 2: replace “a first and a second surface” with – a first surface and a second surface –

Claim 16, line 3: replace “the first and the second surface” with – the first surface and the second surface –

Claim 16, line 23: replace “feed-throughs.” with -- feed-throughs, wherein the first component and the second component comprise microcircuit chips. --

5. **Amend Claim 26 as follows:**

Claim 26, lines 1-2: replace “the electrically insulating adhesive” with -- “the first electrically insulating adhesive --.

Cancel claims 5 and 7.

Allowable Subject Matter

6. Claims 3, 11-12, 16-19, 22-26 allowed. Claims 1-2, 4-10, 13-15, 20-21 canceled.

7. The following is an examiner’s statement of reasons for allowance: Claims 4 and 16 pertain to a method for manufacturing an electronic module, and an electronic

module, respectively, having first and second microcircuit chips embedded in opposing directions within a first sheet of insulating-material layer, wherein each microcircuit chip is electrically connected through a conductive pattern and feed-throughs on each surface of the first sheet is not taught or suggested by Shindo or Nakamura. A thorough search was conducted, however at the present time the specified first and second microcircuit chips embedded in opposing directions within a first sheet of insulating-material layer, wherein each microcircuit chip is electrically connected through a conductive pattern and feed-throughs on each surface of the first sheet overcomes the prior art. Therefore, Claims 4 and 16 overcome the prior art of record and upon further search and consideration, the claimed invention is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
